

# 48<sup>th</sup> Annual National Student Research Forum

Galveston, Texas

April 26 -27, 2007

**Attention Medical and Graduate Students In Biomedical Research**

**Abstract Deadline January 12, 2007**

*The primary purpose of the National Student Research Forum is to provide a national scientific assembly, planned and managed by students for the presentation of research by medical students, graduate students, interns, and residents in the biomedical sciences. The Forum provides an opportunity for young biomedical scientists to receive critical analysis and recognition of their research efforts from established scientists.*
